1	Topics Activ	lies	*Priority	Оргинц	Q I	U2	U3	Q4	Q1	Q2	Q3
1.1		n DOIs	1								
	Assig	Determine which classes of content to assign DOI (monographs)	'								
		Determine which copies to assign a DOI							1		
1.2	Evnos	se DOI in the BHL UI, APIs, exports	1						1		
1.4	CLUSTER	se bot in the bite of, AFTS, exports	2								
2.1		ng content	1								
2.1	Syrici	From IA to BHL Nodes Automatically	'								
		From IA to BHL Nodes Automatically From IA to BHL Nodes Shipping drives									
		Create a Global shipping plan									
		Track location of drives									
		Determine content of drives			1	1	1				
		Define matrix for selective sync									
		From Botanicus (MOBOT) to IA									
		Define changes to Botanicus apps									
		Address Page Inserts			1						
		Decouple from MOBOT infrastructure			1						
2.2	Sorvi	ng content	1								
2.2	Jei Vi	Define application requirements	'								
		Administer applications on Internet Archive-provided server									_
		Make local modifications and make reproduceable									
		Determine how to fail over and or serve from Cluster			1						
2.3	Evaluate apps in cloud compute environment		2	^	1						
	Evalu	Tesseract OCR for Chinese characters	3		1						
		NetiNeti			1						
2	CITEBANK	Nethvett	2								
3.1		lete bulk upload component	1								
3.1	Comp	Test in staging and production									
		Copy files to Citebank collection at IA									
		Implement User Roles									
3.2	٨٨٨١٠	g specialist bibliographies	า	^NSF	\vdash	1					
ა.2	Audir	Investigate Mendeley as an option		INSE	1	1					
		Mendeley didn't exist when we started describing Citebank requirement	tc		1	1			\vdash		
		Reuse Mendeley as citation management tool instead of building oursel									
		Current functionality allows users to upload bibliographies	ves.	1	\vdash	1	}				
3.3	Allow	users to upload PDFs	ာ	^NSF	1	1	}		\vdash		
ა.ა	Allow	Evaluate the Creative Commons module for Drupal in Staging	3	INSE							
		Need functionality to assign copyright and license for each uploaded file									
		Copy file and metadata to IA			1						
					-						
4	NAME CINDIN	Work with Electronic Frontier Foundation on Legality	2								
4			2								
4.1	vvrite	a problem statement for submission to partners	1								
		Engage with uBio, GBIF, EOL, OpenUp!, IMPACT							\vdash		<u> </u>
		Make sample set available for testing									

	Ask for most common searches for EOL species pages			-				
4.2	Analysis of "Gray" names	_	^					
4.3	Refine NomenFinder	3	^					
	EOL did first draft, BHL provided feedback, more analysis needed					\longrightarrow		
	Review other name finding algorithms	3				\longrightarrow		
_	NetiNeti					igspace		
	BHL PORTAL ENHANCEMENTS	2						
5.1	Commit BHL value-added information back to Internet Archive file system	1				igwdap		
	Auditing of changes for tracking purposes			lacksquare		igwdap		
	Writing METS to IA for each vol.					igwdow		
5.2	Review OAI Metadata from BHL to CiteBank	2				igwdap		
5.3	Revise MODS display in UI in APIs	3		\Box		\longrightarrow		
5.4	Enhance Articlizing UI	1	^	\blacksquare		\longrightarrow		
	Include user option to save file to Citebank					\longrightarrow		
	Change the UI labels for article metadata					\longrightarrow		
	Instructions needs to be outside of data entry box							
	Perform new analysis and report of usage and trends							
	LITA							
	Continue promoting this feature							
	Show an end to end example from BHL to Citebank			lacksquare		igwdap		
	Update online video					igwdap		
	Add multiple language?							
	TEXT CORRECTION	3	^					
6.1	Map out an infrastructure for global use and access	3						
6.2	Develop a prototype/test for "correct this text" feature	3						
	Evaluate Trove from Australia							
	Evaluate Wikisource							
	Evaluate Bbliotheca Alexandrina OCR correction					igsquare		
	CONTENT ACQUISITION	1						
7.1	NHM & CUL scans for Darwin's Library	3		\sqcup				
7.2	More content through IA scanning	1	^					
7.3	Ingest content from BHL partner boutique scanning	1						
7.4	More publishers & repositories content throught Citebank	1						
	Manual loading for providers in need of assistance	1						
	OAI-PMH index for publishing systems	1						
	SUSTAINABILITY	1						
8.1	Work with BA and other interested partners to replicate BHL app, database, an							
8.2	Support static app at MOBOT	2	^				1	1
8.3	Pursue technology funding for projects indicated	1	^					
	UNDED PROJECTS					igspace		
	TL2 INTEGRATION							
	Scan volumes	Done						
	Rekey volumes	In proce						
	Determine Data model	In proce	SS			igspace		
	Determine how to integrate with ViBRANT and GRIB			\Box		igspace		
	FEDORA							
	Integrate Fedora into Cluster							
	Integrate Fedora into Citebank			$ldsymbol{\sqcup}$				
	LIFE AND LITERATURE CONFERENCE							
	Provide sys admin / infrastructure support			ш				
	DARWIN'S LIBRARY							
	Prep submitted images	1				ـــــــــــــــــــــــــــــــــــــــ		

	Load content to IA									
	Load annotation data files								$\overline{}$	
	Final review	1								
	Production launch								\neg
