

EDIT C5.145 Import of test sets of selected libraries consisting of a) bibliographic data from the library catalogues and b) licence information on subscribed digital literature. Launch of a prototype of the references index.

Project no. 018340

**Project acronym: EDIT**

**Project title: Toward the European Distributed Institute of Taxonomy**

Instrument: Network of Excellence

Thematic Priority: Sub-Priority 1.1.6.3: "Global Change and Ecosystems"

**C5.145 Import of test sets of selected libraries consisting of a) bibliographic data from the library catalogues and b) licence information on subscribed digital literature. Launch of a prototype of the references index.**

Due date of component: Month 48

Actual submission date: Month 48

Start date of project: 01/03/2006

Duration: 5 years

**Project co-funded by the European Commission within the Sixth Framework Programme (2002-2006)**

Organisation name of lead contractor for this component: 30 MFN

Revision: draft

EDIT C5.145 Import of test sets of selected libraries consisting of a) bibliographic data from the library catalogues and b) licence information on subscribed digital literature. Launch of a prototype of the references index.

Dissemination Level		
<b>PU</b>	Public	X
<b>PP</b>	Restricted to other programme participants (including the Commission Services)	
<b>RE</b>	Restricted to a group specified by the consortium (including the Commission Services)	
<b>CO</b>	Confidential, only for members of the consortium (including the Commission Services)	

## **C5.145 Import of test sets of selected libraries consisting of a) bibliographic data from the library catalogues and b) licence information on subscribed digital literature. Launch of a prototype of the references index.**

The prototype of the references index (GBV demonstrator for the EDIT/BHL-Europe GRIB) was built by the German common library network GBV (Gemeinsamer Bibliotheksverbund, Göttingen). It allows users to browse and search titles held by libraries of EDIT member institutions and will include library catalogue data from BHL-Europe/BHL institutions in the future. The Homepage of the references index is shown in Fig. 1.<sup>1</sup>

Test sets from FUB-BGBM, MFN, NNM Naturalis and NHML have been imported into and are in the process of being deduplicated within the GBV demonstrator. The first page of results for a search for all datasets is shown in Fig. 2.<sup>2</sup> At the moment, there are 156.370 datasets in the index and 5.804 titles have been merged, with 2.742 possible merging candidates being identified. The algorithm for deduplication is in the process of being adjusted. Fig. 3<sup>3</sup> shows an example of a merged record, with holdings information from NNM Naturalis and from FUB-BGBM. An example of licence information on subscribed digital literature as part of the metadata is provided in Fig. 4.<sup>4</sup>

**Welcome to the GBV demonstrator for the EDIT/BHL-Europe GRIB**

This demonstrator, a joint effort of EDIT/ITA and BHL-Europe, built by the Common Library Network GBV (Gemeinsamer Bibliotheksverbund) allows users to browse and search titles held by EDIT, BHL-Europe and BHL member institutions (Test sets from FUB-BGBM, MfN, NAT and NHM at the moment) using advanced filtering. It will be further developed and extended towards the Global References Index to Biodiversity (GRIB). It will then be a tool to manage the taxonomic literature that is (a) already available in digital form, (b) in the process of being digitised, and (c) for which plans have been created for digitisation.

Please send your comments to Boris Jacob, contact: [jacob.boris\[at\]googlemail.com](mailto:jacob.boris[at]googlemail.com)

**Notice:**

- This database is presented in unicode (UTF8). Possible character coding problems might be related to locally missing character fonts (Fonts) in your operating system. The following links could be helpful:  
[Display Problems \(Unicode Consortium\)](#) [Setting up your browser for Unicode support \(abes\)](#) [UTF8 problems \(Wikipedia\)](#)
- Mozilla Firefox version 3.0.x cuts off the right side of the OSD pages or shows a black border below the window contents, if the zoom option of the browser is used. This problem can be solved by activating the option in your browser View > Zoom > Zoom Text Only
- The Internet Explorer 6 doesn't show the logos of the GSD-databases right. You can avoid this by using the IE 7, IE 8 or any other browser.

EDIT C5.145 Import of test sets of selected libraries consisting of a) bibliographic data from the library catalogues and b) licence information on subscribed digital literature. Launch of a prototype of the references index.

The screenshot shows a library search interface. At the top, there is a navigation bar with links for "Search", "Results", "Advanced", "My shelf", "My profile", and "Help". A search bar contains the text "ppn 0?". To the right of the search bar, there are options for "search [and]", "[ALL] all words", and "sort by year of publication". A "search" button is located below the search bar. A "DEMO" logo is visible on the left side of the search bar. Below the search bar, there is a "User id: VZG | logout" link. A blue bar below the search bar contains "search history | shortlist | full title" and "Copyright © 2010 OCLC". The main content area shows search results for "Übersicht der Brutbestandsentwicklung ausgewählter Vogelarten 1900 - 1990 an der niedersächsischen Nordseeküste". The results include fields for PPN, Title, Author, Edition, Published, Extent, Series, Note, and ISBN. A "Zitieren" button is present below the results. At the bottom, there is a section for "Institute(s)" with a "detail layout" button and a list of libraries: "Berlin, Freie Universität Universitätsbibliothek <188>" and "Leiden, Naturalis Library <4792>". A note at the bottom states: "Please note that not all material is available for loan. subito supplying libraries are represented in red".

EDIT C5.145 Import of test sets of selected libraries consisting of a) bibliographic data from the library catalogues and b) licence information on subscribed digital literature. Launch of a prototype of the references index.

The screenshot shows a library search interface. At the top, there is a search bar with the text 'ppn 0?' and a 'search' button. To the right of the search bar, there are options for 'sort by' (set to 'year of publication') and a checkbox for 'approximate search'. Below the search bar, the user is identified as 'User id: VZG' with a 'logout' link. The main content area displays search results for 'Mammalian species' with 1 hit. The result is an electronic resource with the following details: PPN: 000000027, Periodical: Mammalian species / American Society of Mammalogists, Published: Washington, D.C. : BioOne ; New York, NY : JSTOR, 1969-, Extent: Online-Ressource., Numbering: 1.1969 -, Note: Druckausg. u. Vorg.: Mammalian species, ISSN: 1545-1410, ZDB-ID: 2174980-2, Techn. data: File on online systems. An 'Electron. Reference' is provided: <http://www.bioone.org/loi/mmmsp> [ , Verlag; 632.2000 - ]. Below the result, there is a 'Zitierlink' icon and a note: '[Über den Zitierlink können Sie diesen Titel als Lesezeichen ablegen oder weiterleiten]'. At the bottom, there is a section for 'Institute(s): Please click on a institute name or on > detail layout'. Under this section, 'Leiden, Naturalis Library <4792>' is listed with two links: 'Link: <http://library.naturalis.nl/VubisSmart/LinkToVubis.csp?OpacLanguage=dut&DataBib=2:15255> [ 1 (1969) - 787 (2005) ]' and 'Link: <http://library.naturalis.nl/VubisSmart/LinkToVubis.csp?OpacLanguage=dut&DataBib=2:15255> [ 632 (2000) - ... ]'. A note at the bottom states: 'Please note that not all material is available for loan. subito supplying libraries are represented in red'.
